RE: C00243428

Dear Mr. Whyrick:

This letter serves as explanation of the amendment our committee has made to the 2011 Fourth Quarter report.

A charge for \$2,449.40 to US Airways was made on 10/31/11. On 11/2/11 it was credited back to the credit card as travel plans had been changed. I did not see the credit on the November statement until reviewing the statements recently. That credit is now reflected in the report.

Also, after reviewing the rest of the report it appears several charges were not properly pulled into the FEC report from our reporting software. Those disbursements have been re-coded and now appear on the report.

Please contact me if you need additional information.

Very truly yours,

Robyn A. D. Ferdinand
